RUMIKO TAKAHASHI

★ The New Ranma Project ★

Well! Here we have the clear tour de force of the lovely and spirited Lockeheed Dragon! I wish you could all talk to this girl like I have. She's so fun. ^_^

Tackling the HUGE storyline of The Herb Saga would be enough to daunt anyone, but she took it on. Only Shinnosuke equals it in length, and only the grand finale of Phoenix mountain exceeds this in length.

She joined early on, and for whatever reason, chose this as her contribution. It was such a huge job that it took her the whole span of the project to do the entire storyline by herself, but do it she did, and impressively so. :D

Mint!

Consider yourself lucky that I spared your life
Let's go, Lime, Mint
Yes, Herb
W-Wait a second. Our duel still isn't...
Ranma!

Cafe
Ok Granny! Who in the world were those guys!
Hang on Ranma!
That kid's inhuman speed
And that girl's movements in the air
That jerk's inhuman strength
They can't be human arts

They are the last of the Musk Dynasty...
Musk Dynasty?
They were said to be a tribe of fighting men who tried to master the Shokei Fist.
Shokei Fist
That fighting style incorporates the shapes and movements of animals, right?
They went deep into the mountains to study and train...
Adding the special nature and strength of animals to their arts
But I feel they went too far when they tried to merge with animals.
Wh-What do you mean?

* pool of drowned woman in case you didnt know

After defeating a wild animal, the men of the Musk Dynasty would use the Nian-Ni-Chuan* at Jusenkyo to change it into a woman and make it become their bride. Their descendents then inherited the traits of the animal
They did...
WHAT?!
Ani...
Animals for brides...
Yes!
They are the people who inherited the powers of wild beasts.
And...

As the next successor to the rulership of the Musk Dynasty, Herb inherited the blood of dragons.
It is said that the royal family was the most powerful.
Future Son-in-law! You're wake!
Well, isn't that just dandy.
Um

I don't care if she is a dragon's descendent or a sea horse's.
I won't allow this to end with my defeat.

But she defeated you so easily, Ranma!
Well...

Although I believe it would be unwise
I suppose Son-in-law should fight Herb again

Oh, that kind of thing gives me the creeps...
Hah?

So, where's Ranma now?
Taking a bath, I think.

AHHH!!

What's the matter, Ranma?
What is it, Son?
This can't be happening
I'm in hot water and I haven't change back into a guy!

PART.3

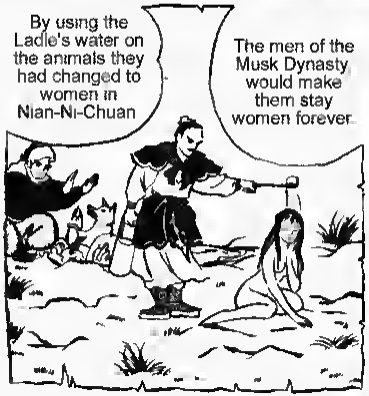
Ranma's Lost Manhood

Sign Tendo Dojo
What the **hell** is going on?
Ranma!
Is true? You no can change into man?
I was afraid this would happen
You know something about what happened to Ranma?
I believe so

After his defeat Herb used her ladle to splash water on Ranma...
That's what caused this!

The ladle?
いろは

It is a special artifact of the Musk Dynasty
Water ladled out of it becomes a mystical water
with the power to lock the form of those cursed at Jusenkyo



By using the Ladle's water on the animals they had changed to women in Nian-Ni-Chuan
The men of the Musk Dynasty would make them stay women forever

Stay women forever...?!

Is there anyway to cure me?
I believe so
There is another Musk Dynasty artifact, that can counteract the effects of the Ladle
The Open Water Kettle
Water boiled in the Open Water Kettle and then poured over the affected person
will cause the effects of the Ladle to be removed **instantly**
The kettle was lost for centuries as it had switched hands repeatedly during China's turbulent history
At present it's here in Japan
It is the reason Herb and the others journeyed here They are looking to retrieve this lost artifact

So, if I douse myself with hot water from this Open Water Kettle...
I get to be a man again, right?

That's good to hear
That's GREAT to hear
So, where can I find the kettle?

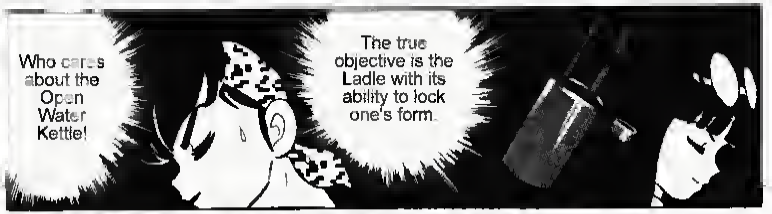
To get your hands on the kettle, you will have to fight Herb again.
And stop her from recovering it.

That won't be a problem.
I wanted to continue our fight anyways.
Why are you being so optimistic, Son-in-law?
Do you really think you have a chance at winning..?

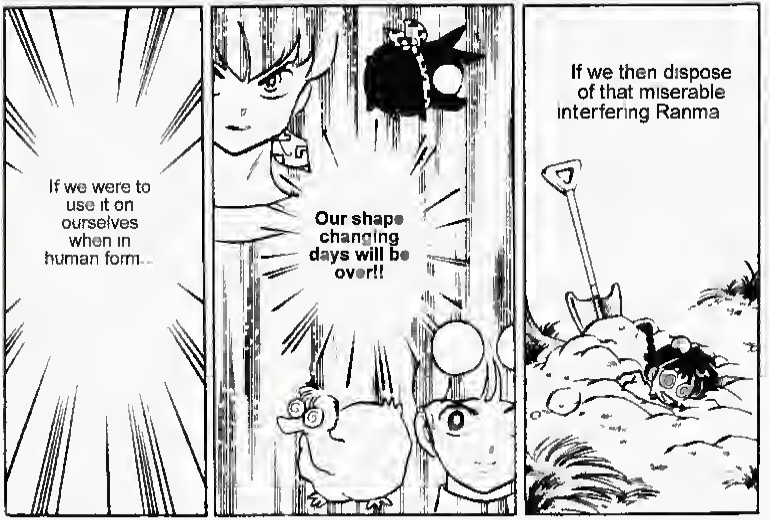
Sounds like finding it is the only thing you can do Ranma

We heard everything
We'll help in the search of the Open Water Kettle
Ryoga ?
Mousse ?
Don't worry Ranma, I will keep you safe from harm
It is dangerous for a beautiful woman like yourself to travel alone
Hey!
Are you two suffering from a fever or something?

Thank you, Ryoga
When it comes right down to it You are a true friend to Ranma
HA HA HA Anything for my dearest friend
Shampoo didn't think Mousse was man of fast friendship
HA HA HA I can't believe you just noticed this
pat pat pat



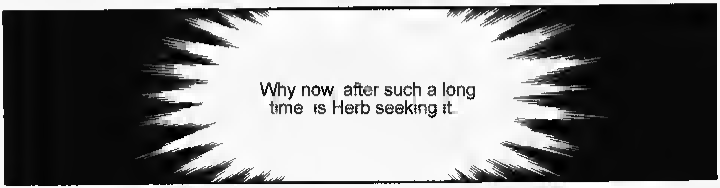
Who cares about the Open Water Kettle!
The true objective is the Ladle with its ability to lock one's form.



If we were to use it on ourselves when in human form...
Our shape changing days will be over!!
If we then dispose of that miserable interfering Ranma

おちおちおちメ
Akane and I will be together...
I can live happily with Shampoo!!
?

As I think about it it's strange
The Open Water Kettle has been left alone for centuries



Why now after such a long time is Herb seeking it

Grrr
Grrr
Grrr

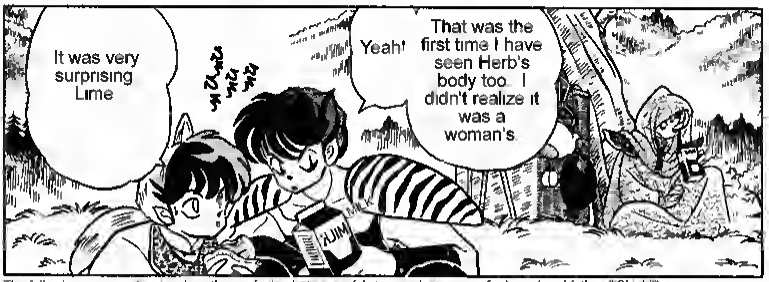
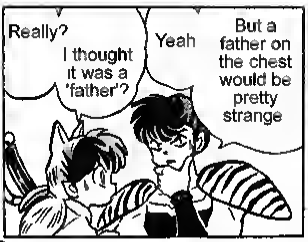
May I help you?

We get to talk to a woman again
Huh?
Oh yeah!
Um...
May I have your autograph to commemorate this moment
HEY! That isn't fair Mint
Then I want A handshake! Yes! I want you to shake hands with me
Yeah! Me too!
Ahh ?
.....
The Open Water Kettle...
Will be in my hands...
Soon...



The following conversation involves the confusion between of Japanese homonyms for breast and father ("Chichi")



Anyhow, I think it is a breast which sticks out of a woman's chest
S-sticks out of a woman's chest?

Good
This is the strong Ranma I know
There is no way I can lose
Ranma If against all odds you can't change back into a man
I feel it will be my duty, to make you my bride!
Don't say things like that!
Ranma! We better be going!
Right! Let's go!

Just you wait When I return, It will be as a man
Fight Hard, Ranma!
I believe in you!
And with that their difficult journey has began

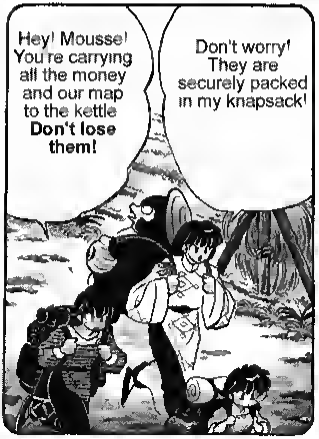
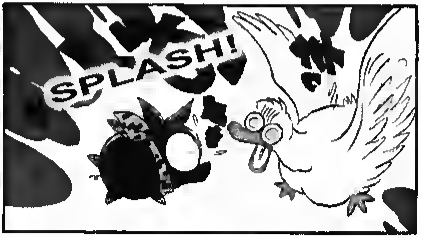
Hey!
Why do we have to work part-time in a place like this?
We have little choice, we haven't any money left



Hey! Mousse! You're carrying all the money and our map to the kettle **Don't lose them!**
Don't worry! They are securely packed in my knapsack!

Aside from losing all our money, you lost the map **too** you nearsighted JERK!
There's no use criticizing something that's already past!



SPLASH!

I had to be an idiot, having you two come along
Definitely
Having lost the map, my only chance now is to search for Herb
If I am to return to being a man...
I will have to steal the Open-Water Kettle from her after she finds it!

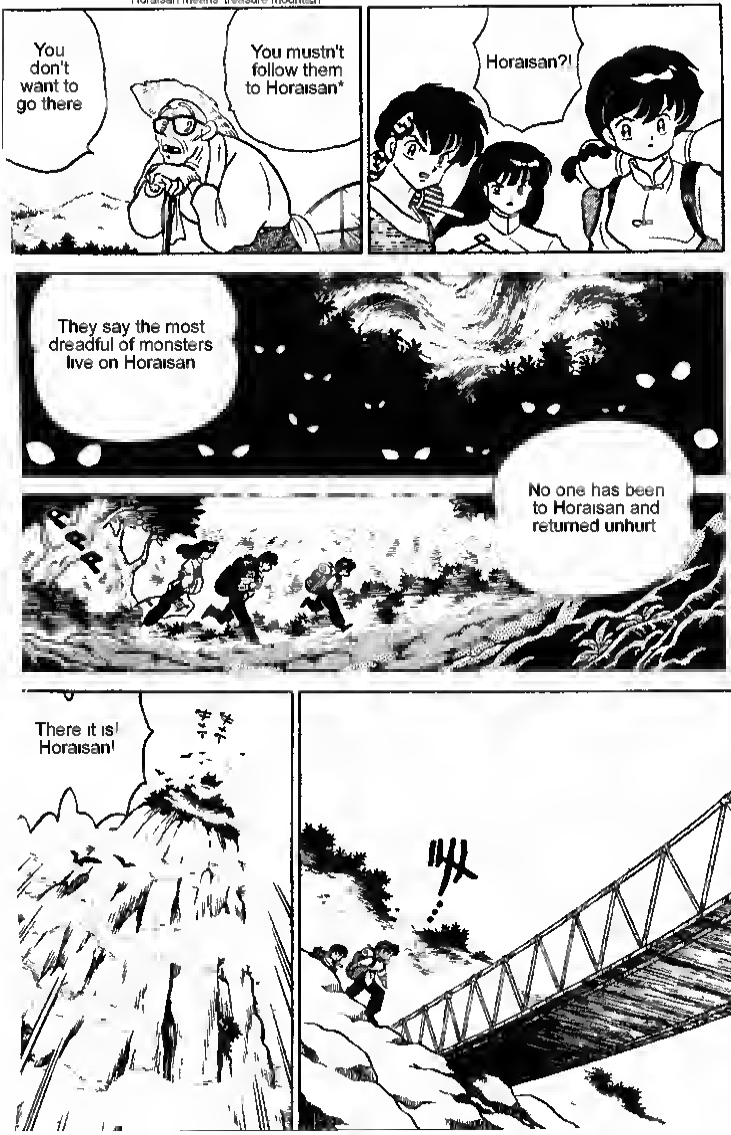
The Pursuit to Horaisan

WHAT?!
Have you seen them?
These three!!
Have they passed by here?
Do you know where they went?
WHAT?!
We need to find them....
EH?!
AH!!

* Horaisan means 'treasure mountain'



You don't want to go there
You mustn't follow them to Horaisan*
Horaisan?!
They say the most dreadful of monsters live on Horaisan
No one has been to Horaisan and returned unhurt
There it is! Horaisan!

Somewhere on this mountain
Is the Open-Water Kettle that can change me into a man again

Let's get moving!
Yeah!
Oh boy...
It is a near vertical climb
If they can we can
Look!!

They're climbing so fast
Oh great! We need to catch up with them!
Huh?
Herb! They're following us!
Just leave them alone for now

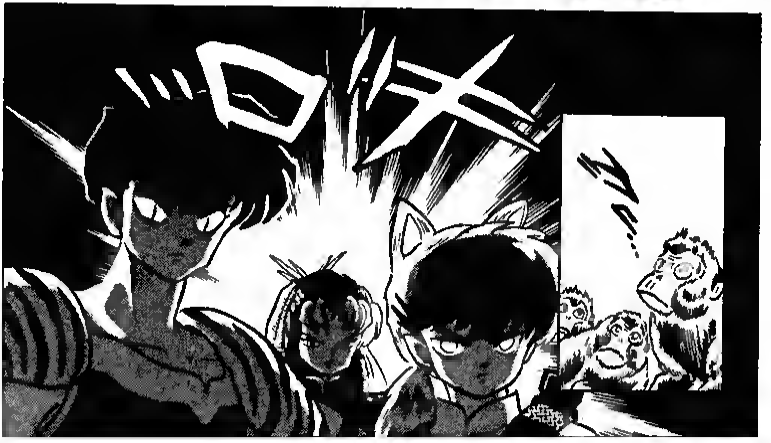
We decided to first seek out what is hidden on this mountain, the Open Water Kettle
We'll play with Ranma after that
Hm?
Now that I think about it, didn't the old man we asked directions from
Say there were monsters living on Horaisan...?

!
Hey! Let's get a move on!
Damn it!
This is taking too damn long!
Ah! Yes
Baku Sai Ten Ketsu!
KABOOM!
ACK!
YOU IDIOT!! Do you want to cause a rockside?!

キキキキ

Wha?
!
They're only...

This is the true form of the monsters? Monkeys?!



アセ...

The monkeys instinctively sensed
Their opponents are wilds beasts
They mustn't fight!!
Huh!

Herb, they were scared of us why attack them?
Yeah. They were a pitiful bunch.
SHUT UP!
Just seeing a monkey's face makes me feel like throwing up!!
Meanwhile
Ach!
Ach!
We made it...
ROAR!
Hm?
Now what?
You got to be kidding me
Drool
Drool
Drool
This time, the monkeys instinctively sensed...
They can easily WIN!

Hey! Watch it!
Take this you stupid monkey!
Ow! OW! What's the big idea?!
It hasn't moved a single bit...

There hasn't been any reaction in this area
Ok
Herb I have everything ready so you can rest
Good
You two will continue to search for the Open-Water Kettle
I will get some rest
If I don't attempt to restore my energy soon
We understand Herb
Since coming to Japan You've been overusing your energy attacks
Ahhh
A woman's sleeping face
When they're sleeping does 'father' sleep too?
I thought I told you idiots to continue the search for the Open-Water Kettle?!!

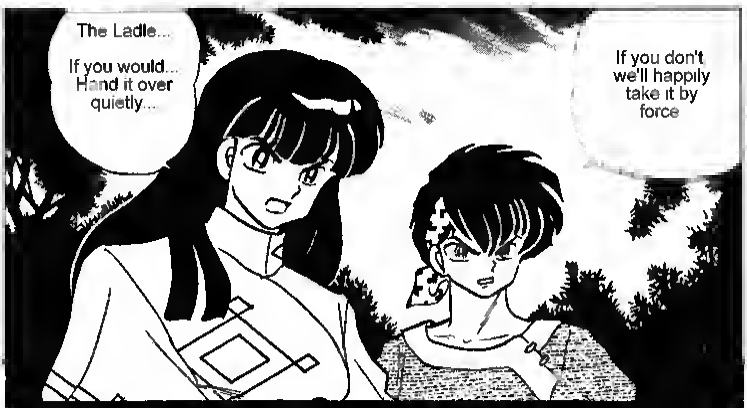
Damn it...
C-Cause we were fighting the monkeys...
We've lost track of them...
How are we going to find them in this forest...?
It will be hard to find the Open Water Kettle in this forest, won't it Lime?
Yeah, the very thought of it makes me dizzy, Mint
What a stroke of luck!
What's that thing they're carrying...?
It's the Ladle that can let us stay men for good!!

ドンッ

Eh ?

Why don't you rest here for a while Ranma
While we retrieve our true objective on this journey

Wait!



The Ladie...
If you would... Hand it over quietly...
If you don't we'll happily take it by force

By force you say?

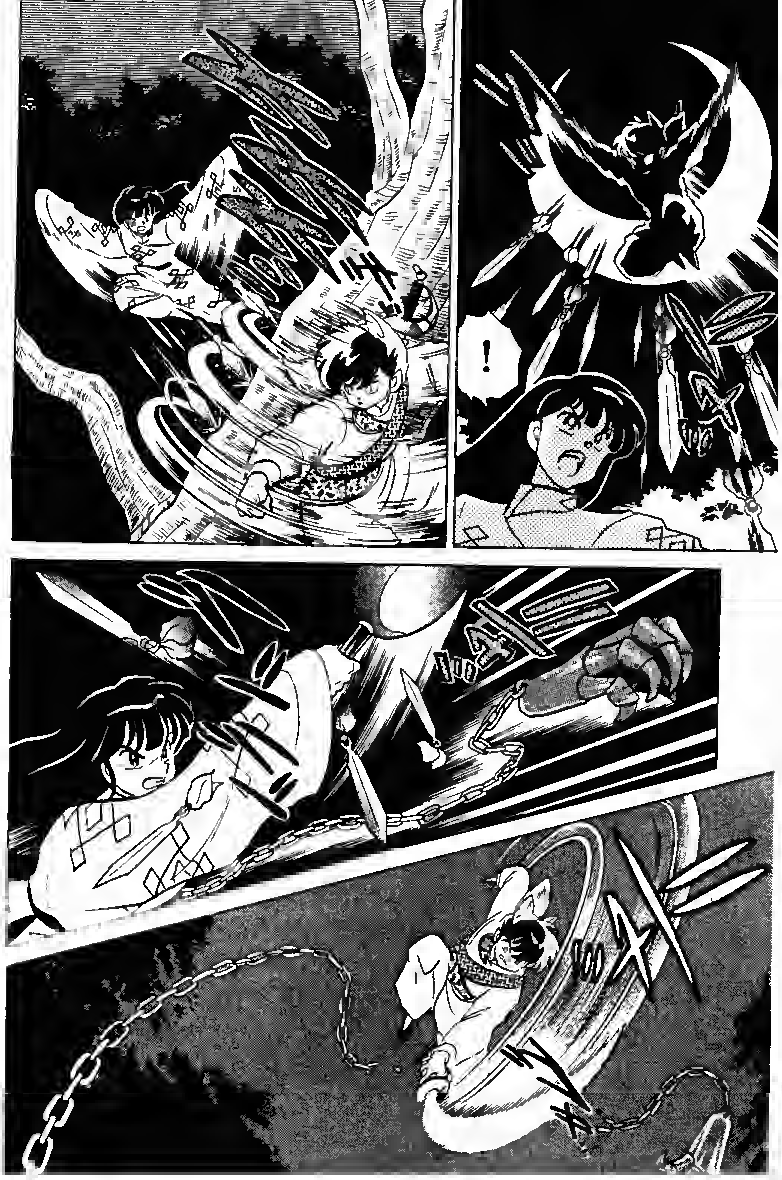
We'll have you experience it as well!!!

Went inside!
Hah!
Gmm...
Ouch...

Hah!
Heh
That was hardly a tickle
On top of having his idiotic strength, this tiger-striped guy can take a strong punch as well
But

He's nowhere near as fast as Ranma!
Heh! Ranma...
My daily skirmishing with you...
Will make this fight a piece of cake!



The only reason he would draw his sword
He doen't have anymore throwing weapons
I can WIN!!

Ugh!
It's no use
You don't have
anything you
could use
against me!!

Heh! But...
You shouldn't underestimate me one who has fought Ranma numerous times before
When Ranma starts having a disadvantage...
He is a man who will take advantage of his opponent's weak spot
This kid's weak spot...
Look! A woman!
Where?
Now's my chance!

Oops
If you can't land a punch, even your enormous strength,...

Ah!
Sorry about that!

Now all Ryoga has to do is finish off the tiger-striped guy

Herb. They went in this direction
Fine
Wha ?
That's the light beam the Ladle emits when near the Open-Water Kettle

Lime! Mint! Let's get moving!
We need to reach the kettle as soon as possible!

Do it Lime!
Right

The Open-Water Kettle.....

Huh?
Ahh...

Hot water is pouring from it!
There must have been an underground spring and the Open-Water Kettle has cause the waters to boil
In other words, this waterfall of hot water
is the mystical water that undoes the transform locking effects of the Ladle
I have been waiting long for this
At last I can return to my real form

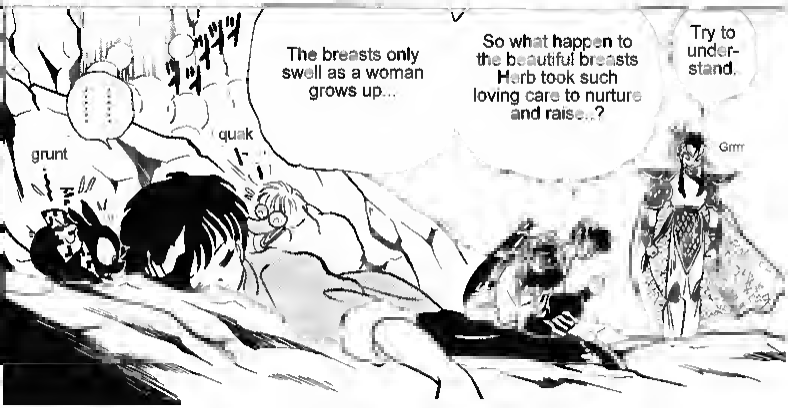
And this is only a rumor we heard But



The breasts only swell as a woman grows up...
So what happen to the beautiful breasts Herb took such loving care to nurture and raise...?
Try to understand.

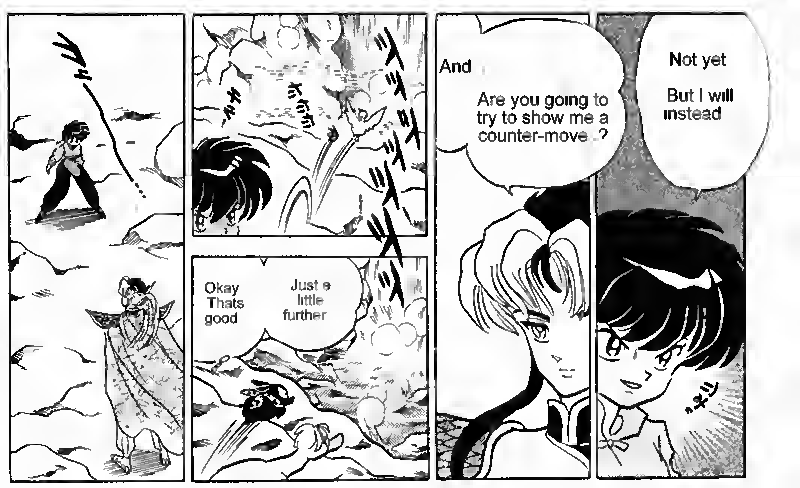
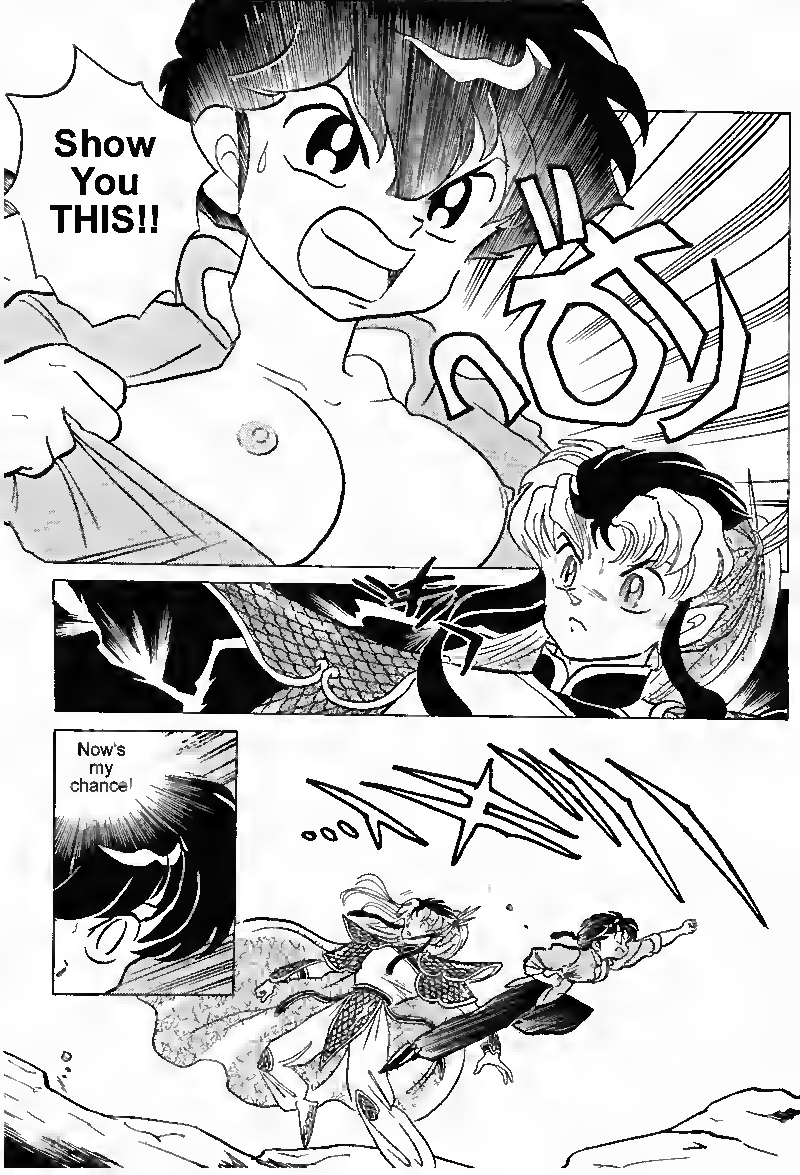
Hm?
!
Herb... I want to thank you for becoming a man again...
I saw your Ryu Sei Hisho this time...
Clearly!!
Ooh?

You still have the spirit to defy me ?
I will hear what you have to say then...
When you were a woman and performed the Ryu Sei Hisho
I wasn't able to tell where the blows were coming from.
Because the Chi that you gave off was too weak...
But now that you are a man again, you have become stronger...
The path your Chi energy blasts take, has become exposed!!

While flying through the air, you cause your Chi blasts to bounce off the ground and strike your opponent...
This is the true form of the Ryu Sei Hisho!!!
(Dragon Spirit Flight)



Okay Thats good
Just a little further
And
Are you going to try to show me a counter-move...?
Not yet
But I will instead



Show You THIS!!
Now's my chance!

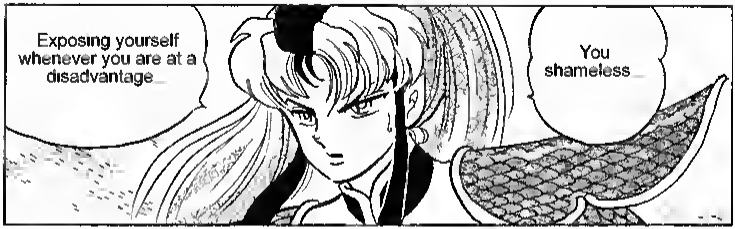
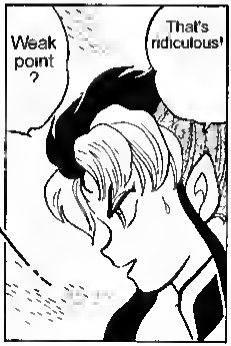
THWUP
!

Haa!
Teh!
!
Hah!
Your mind likes to wonder, doesn't it, Herb
Thud
You

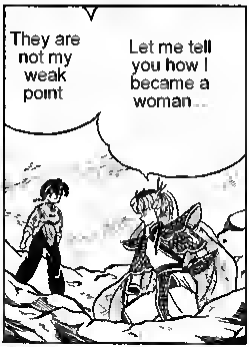


Exposing yourself whenever you are at a disadvantage...
You shameless...

I always take advantage of an opponent's weak point and breasts are yours



Weak point ?
That's ridiculous!

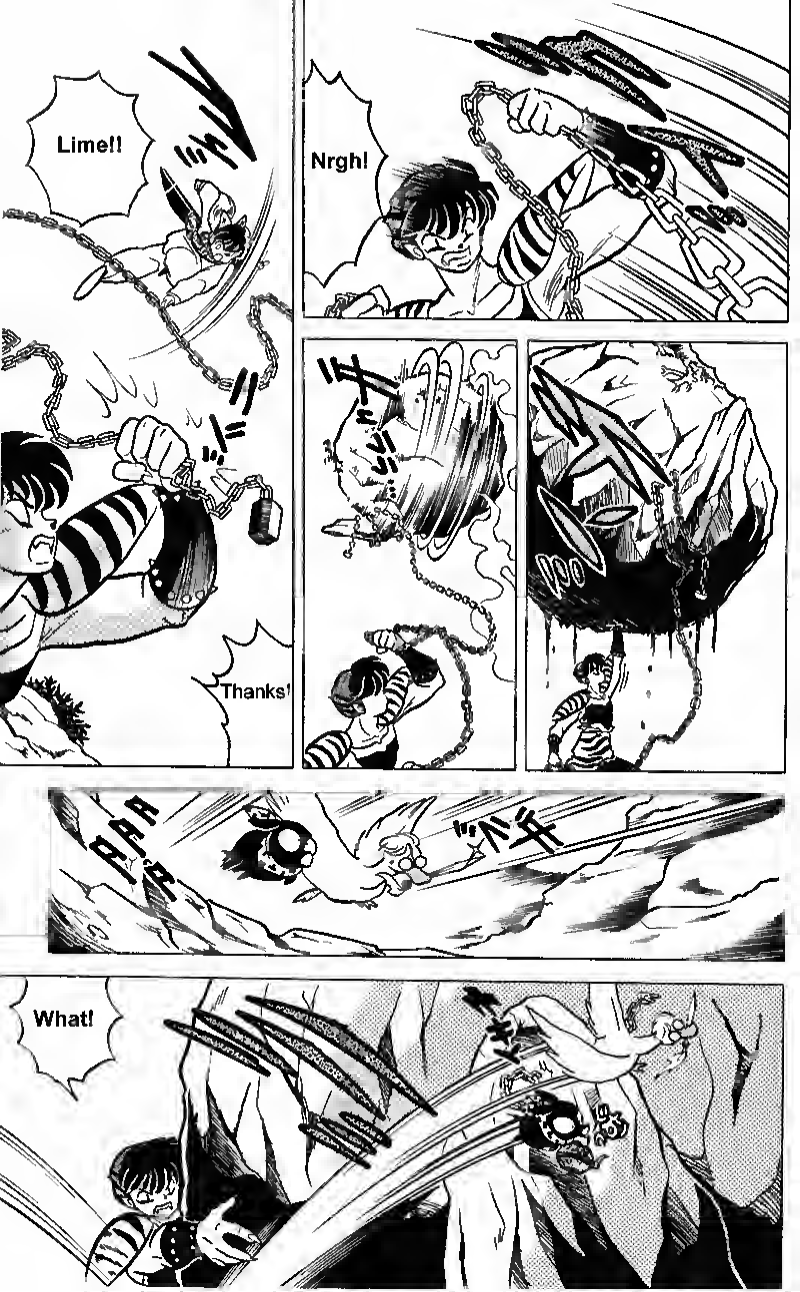


They are not my weak point
Let me tell you how I became a woman...

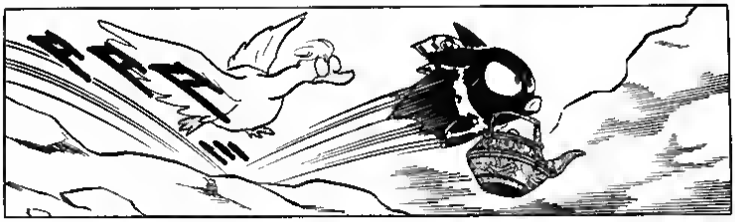
Specifically,
How I fell into the Nian-Ni-Chuan

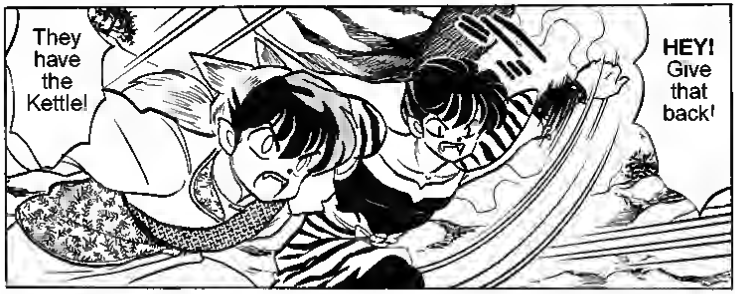
.....

MEANWHILE
WAIT! You Stupid Rock!
The Open-Water Kettle!
SHOOOUUCH



Lime!!
Nrgh!
Thanks!
What!





They have the Kettle!
HEY! Give that back!

For fourteen thousand years the Musk Dynasty has dedicated itself to be the best in the marital arts...
As soon as the males are weaned we are pulled away from our mothers
To not even know what women are
We are raised to do nothing but train and study

I heard all this from the old woman at the Cat Cafe
That in order to incorporate the strength and powers of wild animals...
Your ancestors threw animals into the Nian-Ni-Chuan and wed them
That was long ago
Nowadays we just interview the skilled women martial artists from around our village and make them our wives
Then, that fateful day
A interview ?
It's agreed then!
It is for the glory of the Musk Dynasty!
Honored Guest, Here is the Nian-Ni-Chuan
I had caught a monkey from around that area

To prepare for the interview, and learn about the creatures called women, I threw the monkey into the water of Nian-Ni-Chuan
BUT....
I became entranced by the monkey girls' breasts
COUGH COUGH
That is when she took the opportunity
Ahhh! He fell in Nian-Ni-Chuan!
KICK
Having become a woman myself, I then became entranced by my own breasts
Again. She took the opportunity
THEN

I was showered with the water from the Ladle which I had brought to fix the monkey girls' form
crack
Now, whenever I see breasts anger fills my whole body
Your breasts are not my weak point
You are only incurring a dragon's wrath by showing them
In other words...

You, Ranma...
Are a dead ringer for that monkey girl!!
Ngah!
I said... Give That Back!

Ryoga, Mousse...
The two of you have to return to being men...!!

Huh?
To be using weapons like that, these two...
They can't be just a pig and a duck!

There's no place to run...

ﾄｫｫｫ

Heh
What a stuck up guy!
He is getting hotter and hotter by the second
Prepare yourself!
Soon, I will show you my **ultimate** technique

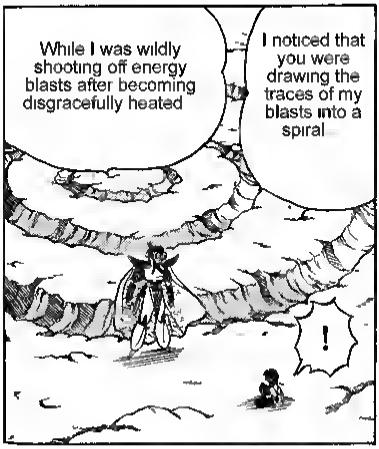
!

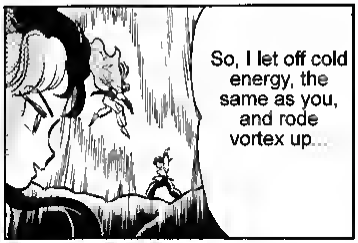
While causing your opponent to grow hotter enfolding them in spiral layers
Ascending "Ki" Energy Flow
Cold "Ki" Energy
Then letting off cold "Ki" in a vortex of fighting spirit you can cause a tornado to form It is the secret art of the Heroine Tribe

How did you know that?

I am descended from dragons who are able to control "Ki"
I know all "Ki" energy based attacks



While I was wildly shooting off energy blasts after becoming disgracefully heated
I noticed that you were drawing the traces of my blasts into a spiral
!



So, I let off cold energy, the same as you, and rode vortex up...

My Hiryu Shöten Ha...
